# + ALL ABOUT US

# WHAT MAKES US COOL

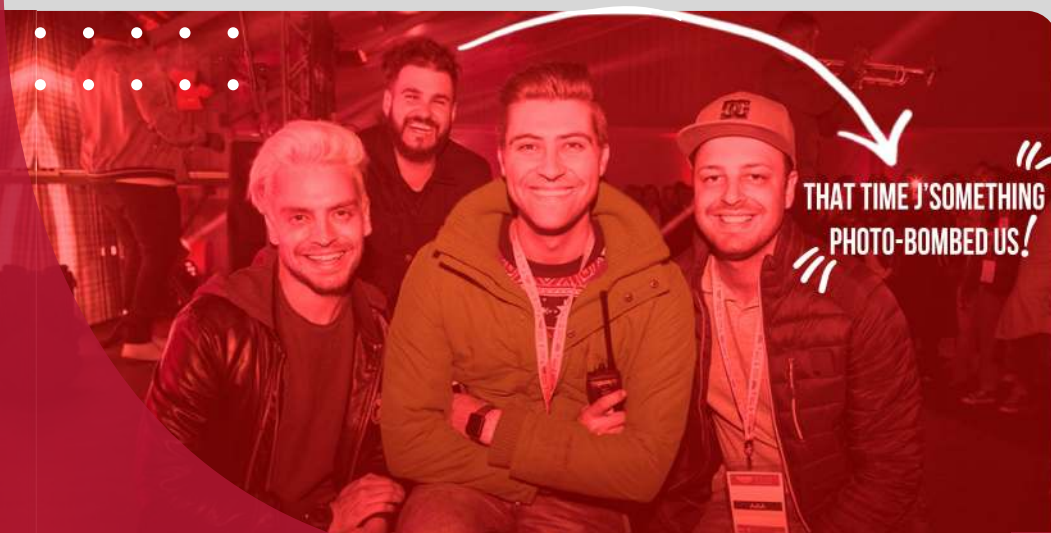

What we do is events, and how we do it is nothing short of *magical*.

Our clients become part of the *fam*, and we help them execute events that make guests blow it up all over their social feeds.

We get creative when it comes to the ol' "*turnkey-solutions*", and instead of thinking outside the box- we aren't scared to just build a brand new box!

We can make anything happen: from live events to fully virtual ones, from circus acts to fashion shows, from corporate gigs to red carpet extravaganzas.

We are **dedicated**. We are **passionate**. We are **CN&CO Events**

# RECENT EVENTS & PROJECTS

**CN&CO Events** has executed countless events over the last year and helped clients to not only conceptualise their unique event but execute it into a unique live experience. These events have ranged from large scale gala dinners, internationally attended conferences to small and intimate gatherings.

Although, since live events have been put on hold, our team has used this challenge to get creative and help clients take their live event ideas and put it on a virtual stage.

Below are a few clients who trusts us for all their virtual & live event needs:

“At **CN&CO Events** we don't **work for our clients**, we work **with them** - which is why we prefer to call them **partners...even friends.**”
